Fax: (801) 359-3940

NOTICE OF INTENTION TO COMMENCE SMALL MINING OPERATIONS

The informational requirements of this form are based on provisions of the Mined Land Reclamation Act, Title 40-8, Utah Code Annotated 1987, and the General Rules as promulgated under the Utah Minerals Regulatory Program.

"Small Mining Operations" means mining operations which disturb five or less surface acres at any given time.

I. GENERAL INFORMATION (Rule R647-3-104)

1. Name of Claim/Mine: BRADSHAW PUMICE AND PERLITE
2. Name of Operator/Applicant: BRADSHAW PUMICE AND PERLITE, A Partnership
3. Permanent Address: 101 NORTH MAIN STREET
City: MILFORD State: UTAH Zip Code: 84751
Telephone Number: (801) 387-5554
4. Ownership of Land Surface:
Private (Fee) _____ Public Domain _____ Other: _____
State of Utah X National Forest (USFS): _____
5. Ownership of Minerals:
Private (Fee) _____ Public Domain _____ Other: Lease
State of Utah X National Forest (USFS): _____
Utah State Lease Number(s): ML 40197, ML 40198 and ML 41353
6. Have the above owners been notified in writing?
Yes X No _____

0003

7. Does the operator have legal right to enter and conduct mining operations on the land covered by this notice? Yes X No

II. PROJECT LOCATION & MAP (Rule R647-3-105)

1. Project Location (legal description):
County(ies): BEAVER COUNTY
Lot 1, Section 2, T28S R9W
W 1/2 of NW 1/4, Section 26 T27S R9W
W 1/2 of SW 1/4, Section 36 T27S R9W
Salt Lake Base and Meridian
2. A topographic base map showing the location of the proposed small mining operation must be submitted with this notice. A USGS 7.5 minute series map is preferred. The areas to be disturbed should be plotted in sufficient detail so that they can be located on the ground. It is recommended that the operator also plot and label any previous disturbances in the immediate vicinity that he is not responsible for.

III. OPERATION PLAN (Rule R647-3-106)

1. Type of mining: Surface
2. Minerals to be mined: Volcanic Material "Pumice"
3. Provide a brief description of the proposed mining operation and onsite processing facilities:
Screening plants, conveyors, loaders, excavator,
(hoe) Washer, Generator. Basically a small screen-
ing operation.

New Road(s): No new roads are anticipated.

Total project surface acreage to be disturbed:
3-5 acres.

Form MGR-SMO

Page 3

IV. OPERATION AND RECLAMATION PRACTICES (Rule R647-3-107, 108 & 109)

The reclamation and operation obligation is to keep the area clean and safe, minimize hazards to public safety, return the land to a useful condition, and reestablish at least 70 percent of the premining vegetative ground cover. To accomplish this, the operator will need to perform reclamation concurrently, or at the completion (within one (1) year) of mining:

1. Keep the mining operation in a safe, clean, and environmentally stable condition.
2. Permanently seal all shafts and tunnels to prevent unauthorized or accidental entry.
3. Plug drill holes with a five foot cement surface plug. Holes that encounter fluids are to be plugged in the subsurface to prevent aquifer contamination.
4. Construct berms, fences, or barriers, when needed, above highwalls and excavations.
5. Remove, isolate, or neutralize all toxic materials in a manner compatible with federal and state regulations.
6. Remove all waste or debris from stream channels.
7. Dispose of any trash, scrap metal, wood, machinery, and buildings.
8. Conduct mining activities so as to minimize erosion and control sediment.
9. Reclaim all roads that are not part of a permanent transportation system.
10. Stockpile topsoil and suitable overburden prior to mining.
11. Stabilize highwalls by backfilling or rounding to 45 degrees or less, where feasible; reshape the land to near its original contour, and redistribute the topsoil and suitable overburden.
12. Properly prepare seedbed to a depth of six inches by ripping, discing, or harrowing.
13. Reseed disturbed areas with adaptable species. (The Division recommends seeding 20 lbs./acre of native and introduced species of grass, forb, and browse seed, and will provide a specific species list if requested.)
14. Plant the seed with a rangeland or farm drill, or if broadcast seeded, harrow or rake the seed 1/4-1/2 inch into the soil - fall is the preferred time to seed.

V. VARIANCE REQUEST (Rule R647-3-110)

Yes _____ No X

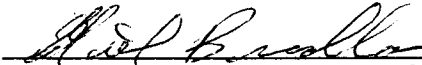

Any planned deviations from Rules R647-3-107, Operation Practices, R647-3-108, Hole Plugging Requirements, or R647-3-109, Reclamation Practices, as summarized above, should be identified below and justification given for the variance request(s):

No request for variance at this time.

VI. SIGNATURE REQUIREMENT

I hereby commit to conduct mining operations and to reclaim the aforementioned small mine as required by the Utah Mined Land Reclamation Act (40-8) and the rules as specified by the Board of Oil, Gas and Mining.

Dated this 30th day of August, 1994.

NEIL BRADSHAW, General Partner
in behalf of himself and
DRUCILLA BRADSHAW,
for and in behalf of BRADSHAW
PUMICE AND PERLITE.
